Energy alternatives

G8 Summit in St Petersburg

The European Greens and a range of environmental NGOs from the EU and Russia are holding a two-day conference aimed at presenting an alternative to energy security for the G8. The conference will open on Sunday, 9 July, and takes place in the Russian town Strelna and in St Petersburg. The conclusions of the Alternative Energy Forum will be presented at a press conference in St Petersburg on Tuesday, 11 July, at 13.00 in the Citizen Watch Office (87, Ligovsky pr. Office 300, 191040 St. Petersburg).

Commenting on the objective of the Alternative Energy Forum Green MEP **Rebecca Harms**, energy spokesperson for the Greens/EFA group in the European Parliament said:

"Energy security is naturally a key priority for G8 heads of state and government, however we are concerned the typically narrow focus on supply of fossil fuels and nuclear will result in an unsustainable and short-sighted outcome to the Summit. The Alternative Energy Forum aims to provide more viable long-term solutions to the problems of energy security and supply."

For further information please contact **Rebecca Harms** MEP at +49-171-5325721 (mobile).
