Greens/EFA briefing on the Commission's whistleblower proposals

After a long campaign for the protection of whistleblowers in the EU, the Greens/EFA group has welcomed the publication of the European Commission's proposals. The Greens/EFA group has been consistently pushing for a directive and published its own draft proposal in May 2016, which was updated earlier this month following a public consultation.

In this briefing, we detail the main victories and set out where work is still to be done.
