### **Stop the construction of the EPR reactor in France!**

Another action took place 10 days ago when 4 anti-EPR citizens spent a whole week-end on a pylon of a powerline close to the location of the construction place.

This action took also place in the context of the French presidential elections with the demand to the 2 candidates to stop this project. This demand was accepted by S. Royal who declared also today that if she wins the election the construction of the EPR reactor would not go on!
